

PHOTOGRAPHY CAREERS

Part One: *Group Presentation*

With assigned partner or group of three, select one of the following photography-based careers. Find examples of the style of photography used, specific relevant photographers, specialized equipment, etc.

Prepare a 15 to 20 minute PowerPoint (or similar) lecture on this information. This should be a continuous sequence of slides to support your presentation.

Include a bibliography of your sources at the end of the presentation. Practice your presentation ahead of time. Reading directly from something you downloaded is plagiarism

photojournalism
commercial/ product
fine art

fashion photography
sports photography
food photography

Part Two: *Photo Critique*

Select two photos that you have taken so far this semester. One photo should be from an assigned shoot (Diane Arbus, etc) and the second from a self-assignment.

Print both photos in color on photo paper at 8 x 10 inches. Mount on black mounting board with a 1 inch border on all sides.

Also turn in a high resolution digital copy of the two photos and a printed contact sheet.

Timeline

Week five	Meet partner, start research
Week six	Open lab to work on presentation and print photos
Week seven	Presentations and photo critique
